01 Your top leaks

1 critical **Your contact page has no form**

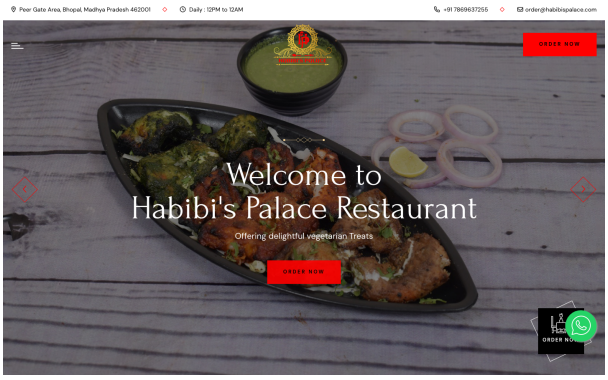

Most visitors won't open their mail app and type — those enquiries silently drop.

2 high **No action button visible in the header on mobile**

On phones, most visitors never scroll — without a top button they can't reach you at all.

3 low **No meta description**

Search results show random text instead of your pitch — fewer clicks from Google.

02 Growth gaps (beyond the website)

1 **Best delivery proof stays off your site**

Zomato shows 4.3★ from 7,531 delivery ratings, yet your site shows only a few old quotes and no review links — strong repeat-order evidence never reaches your direct order page.

2 **Linked YouTube channel is dormant**

Your footer YouTube channel has 21 subscribers and hasn't posted since Dec 2024 — a live link that signals the brand has stopped.

3 **No active Meta ads found**

Meta Ad Library (India, active) shows no ads for Habibi's Palace — the direct order page runs with no paid traffic behind it (searched 16 Oct 2026).

03 What Nexg does

FIX — websites, dead forms, speed, the leaks above. **GROW** — Google & Meta ads, content, reviews. **AUTOMATE** — AI enquiry assistants, WhatsApp bots, CRM.

> Recent work: we built eRestro — a live ordering & operations product for restaurants (our own product, nexg.tech).
