Website Leak Report

For **Trinity Multispeciality Hospital** · https://trinitymultispecialityhospital.in · audited 14 Oct 2026 · load 5.7s

Overall	Conversion	Reliability	Speed	Trust
71/100	**23**/40	**25**/25	**11**/20	**12**/15

01 Your top leaks

1 critical **No clear call-to-action on the page**

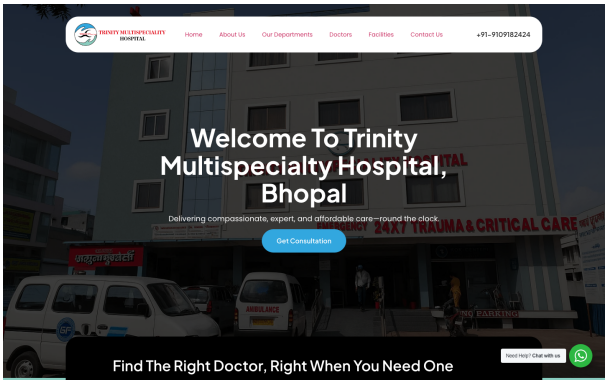

Visitors aren't told what to do next — they browse and leave without contacting you.

2 high **No action button visible in the header on mobile**

On phones, most visitors never scroll — without a top button they can't reach you at all.

3 high **Homepage takes 5.7s to fully load**

Every extra second of waiting cuts conversions — most visitors leave before it finishes.

Your site as visitors see it today

02 Growth gaps (beyond the website)

1 **No Meta ads running in India**

No active Facebook/Instagram ads found for Trinity — anyone seeing a hospital ad in Bhopal right now is seeing a competitor, not you (checked 16 Oct 2026).

2 **4.2★ rating, no way to collect reviews**

Google shows 4.2★ from 169 reviews including several sharp negatives from 2025 — the site has a reviews widget but no link asking patients to leave a review, so nothing is fixing the average.

3 **Social accounts look dormant**

Instagram and Facebook are linked from the footer, but the newest posts findable are from mid-2024 — nothing recent reinforcing the brand.

03 What Nexg does

FIX — websites, dead forms, speed, the leaks above. **GROW** — Google & Meta ads, content, reviews. **AUTOMATE** — AI enquiry assistants, WhatsApp bots, CRM.

> Recent work: we designed and built the website for a Bhopal dental practice — the same kinds of leaks, all fixed and live.
