01 Your top leaks

1 high **Your contact page has no enquiry form**

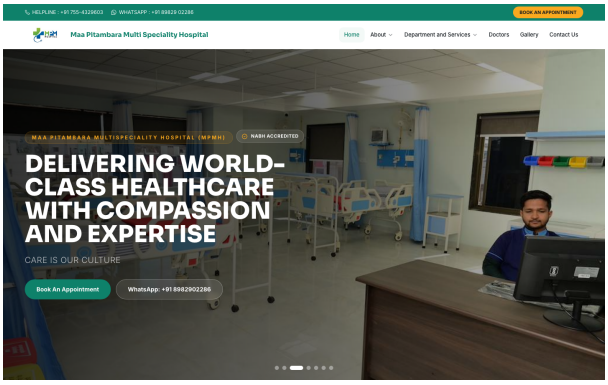

No easy way for a visitor to reach you — every interested visitor is a lost lead.

2 medium **Homepage loads in 2.5s**

Slower than the 2.5s where conversions start to drop.

3 medium **First content appears after 2.6s**

Visitors stare at a blank screen — many bounce before seeing anything.

Your site as visitors see it today

02 Growth gaps (beyond the website)

1 **4.8★ from 237 reviews, none on your site**

The strongest Google rating of any hospital checked, yet the website shows no reviews and no link to the listing — trust you earned isn't being used to turn visitors into enquiries.

2 **No social media presence found**

The site links no Instagram, Facebook or YouTube, and no official account could be found — no channel for patient stories, maternity follow-ups or repeat visits.

3 **No active Meta ads**

No ads found in Meta Ad Library for Maa Pitambara — no paid campaigns behind emergency, maternity or cashless-treatment enquiries (16 Oct 2026).

03 What Nexg does

FIX — websites, dead forms, speed, the leaks above. **GROW** — Google & Meta ads, content, reviews. **AUTOMATE** — AI enquiry assistants, WhatsApp bots, CRM.

> Recent work: we designed and built the website for a Bhopal dental practice — the same kinds of leaks, all fixed and live.
