01 Your top leaks

1 high **No action button visible in the header on mobile**

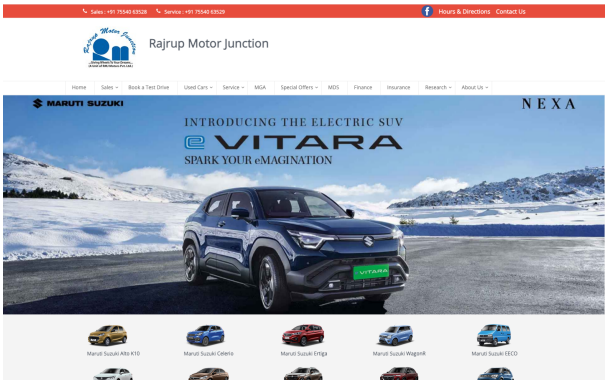

On phones, most visitors never scroll — without a top button they can't reach you at all.

2 medium **No WhatsApp click-to-chat**

Many visitors prefer WhatsApp over forms — you're losing the channel they actually use.

3 medium **Homepage loads in 2.9s**

Slower than the 2.5s where conversions start to drop.

Your site as visitors see it today

02 Growth gaps (beyond the website)

1 **4,000+ reviews not used on your site**

Your JK Road showroom shows 4.5★ from 4,057 Google reviews — the testimonials page carries a handful of quotes with no star rating and no link to Google; your biggest trust asset is invisible on your own site.

2 **Service listing stuck at 3.6★**

The workshop's separate Google listing shows 3.6★ from 34 reviews, including 1-star reviews from Oct 2025 about incomplete service and waiting time — service customers see that before they book.

3 **No active Meta ads**

No ads found for Rajrup Motor Junction — no paid test-drive, exchange or service-offer campaigns on Facebook/Instagram while car shoppers browse there (16 Oct 2026).

03 What Nexg does

FIX — websites, dead forms, speed, the leaks above. **GROW** — Google & Meta ads, content, reviews. **AUTOMATE** — AI enquiry assistants, WhatsApp bots, CRM.

> Recent work: we rebuilt a Bhopal auto dealer's website after the same kind of audit.
