01 Your top leaks

1. high **No action button visible in the header on mobile**

   On phones, most visitors never scroll — without a top button they can't reach you at all.

2. medium **No main heading (H1) on the page**

   Visitors can't tell what the business offers in 3 seconds.

3. low **No pricing visible anywhere**

   Buyers self-qualify on price — hiding it delays every conversation and filters out ready customers.

02 Growth gaps (beyond the website)

1. **Expired 2025 offer popups still live on site**

   Site still triggers popups reading 'Valid Till – May 31st, 2025' / 'June 30, 2025' — current promotions look unreliable.

2. **No Bhopal Maruti showroom on the locations page**

   Locations page lists Bhopal only as an Eicher outlet — Bhopal buyers get no local Maruti showroom path from the main site.

3. **Duplicate legacy website on a subdomain**

   maruti.patelmotors.com serves an older copy of the site — splits SEO authority and confuses which is official.

03 What Nexg does

FIX — websites, dead forms, speed, the leaks above. **GROW** — Google & Meta ads, content, reviews. **AUTOMATE** — AI enquiry assistants, WhatsApp bots, CRM.

> Recent work: we rebuilt a Bhopal auto dealer's website after the same kind of audit.
