Website Leak Report

For **Dr. Aditya Agarwal** · https://www.smhbhopal.com · audited 14 Oct 2026 · load 3.8s · CLS 0.002

Overall	Conversion	Reliability	Speed	Trust
86/100	**30**/40	**25**/25	**17**/20	**14**/15

01 Your top leaks

1 high **No action button visible in the header on mobile**

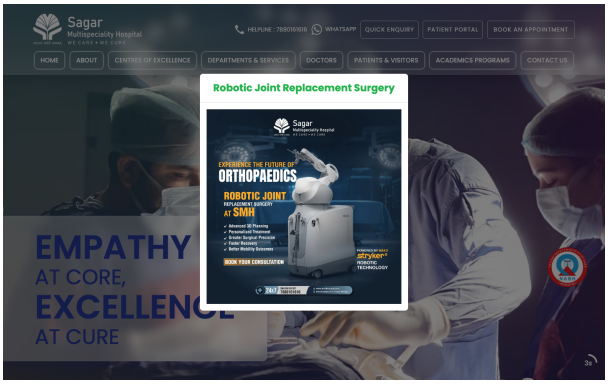

On phones, most visitors never scroll — without a top button they can't reach you at all.

2 medium **Homepage loads in 3.8s**

Slower than the 2.5s where conversions start to drop.

3 low **No pricing visible anywhere**

Buyers self-qualify on price — hiding it delays every conversation and filters out ready customers.

Your site as visitors see it today

02 Growth gaps (beyond the website)

1 **No paid-social presence for patient acquisition**

No Meta Pixel on the site and no ads in Meta Ad Library — a 300-bed private hospital running zero measurable Facebook/Instagram advertising.

2 **Google listing address PIN conflicts with official records**

Listing shows PIN 462047; site, NABH record and HexaHealth all show 462026 — navigation by listing gets an inconsistent address.

3 **Facebook feed appears dormant vs active LinkedIn**

Newest FB post May 2025 while LinkedIn publishes weekly through Sep 2026 — the family audience on Facebook isn't being nurtured.

03 What Nexg does

FIX — websites, dead forms, speed, the leaks above. **GROW** — Google & Meta ads, content, reviews. **AUTOMATE** — AI enquiry assistants, WhatsApp bots, CRM.

> Recent work: we designed and built the website for a Bhopal dental practice — the same kinds of leaks, all fixed and live.
