01 Your top leaks

1 critical **No clear call-to-action on the page**

Visitors aren't told what to do next — they browse and leave without contacting you.

2 high **Your contact page has no enquiry form**

No easy way for a visitor to reach you — every interested visitor is a lost lead.

3 high **No action button visible in the header on mobile**

On phones, most visitors never scroll — without a top button they can't reach you at all.

02 Growth gaps (beyond the website)

1 **772 Google reviews never shown on site**

Google lists you at 4.4★ from 772 reviews, but the website shows only a few generic quotes — your best trust signal is invisible to website visitors.

2 **Delivery is 100% Zomato-dependent**

The site advertises free delivery but its Online Order page sends everyone to Zomato — every delivery order is commission-based, with no direct path.

3 **No active Meta ads found**

Meta Ad Library (India, active) shows no ads for Nai Dilli — no paid pipeline feeding tables or delivery orders (searched 16 Oct 2026).

03 What Nexg does

FIX — websites, dead forms, speed, the leaks above. **GROW** — Google & Meta ads, content, reviews. **AUTOMATE** — AI enquiry assistants, WhatsApp bots, CRM.

> Recent work: we built eRestro — a live ordering & operations product for restaurants (our own product, nexg.tech).
