## 01 Your top leaks

1 high **No action button visible in the header on mobile**

On phones, most visitors never scroll — without a top button they can't reach you at all.

2 medium **Page elements jump around while loading**

Text moves when visitors try to tap it — misclicks and frustration.

3 medium **No main heading (H1) on the page**

Visitors can't tell what the business offers in 3 seconds.

## 02 Growth gaps (beyond the website)

1 **Website is visibly unmaintained**

Footer still reads '© 2017, Design by TBI Technologies' and What's New links to '#' — tells prospects the digital presence hasn't been touched in years.

2 **Incomplete social links in footer**

Only Facebook is wired; Instagram/Twitter icons are empty '#' — the active Instagram audience can't be reached from the site.

## 03 What Nexg does

**FIX** — websites, dead forms, speed, the leaks above. **GROW** — Google & Meta ads, content, reviews. **AUTOMATE** — AI enquiry assistants, WhatsApp bots, CRM.

> Recent work: we audited and rebuilt our own site, nexg.tech — it scored 74/100 before we fixed it.
