01 Your top leaks

1 critical **No clear call-to-action on the page**

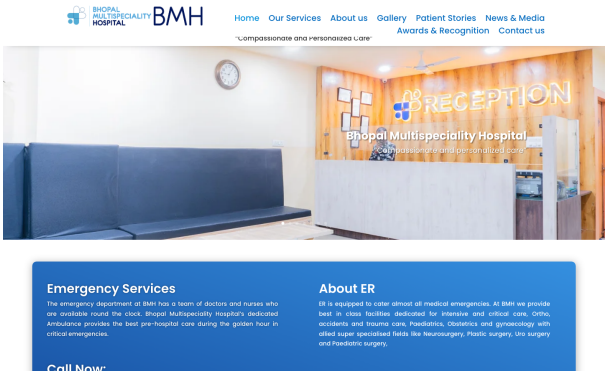

Visitors aren't told what to do next — they browse and leave without contacting you.

2 high **No action button visible in the header on mobile**

On phones, most visitors never scroll — without a top button they can't reach you at all.

3 medium **No WhatsApp click-to-chat**

Many visitors prefer WhatsApp over forms — you're losing the channel they actually use.

02 Growth gaps (beyond the website)

1 **No ads while a Bhopal rival advertises**

No active ads found for BMH — Gayatri Multispeciality Hospital is running live Facebook/Instagram ads right now; they are buying the attention you are not (16 Oct 2026).

2 **260 Google reviews, none shown as a rating**

Google shows 4.6★ from 260 reviews, but the site shows only its own written testimonials — no star rating, no link to the listing; your strongest proof sits off-site.

3 **No Instagram presence**

The footer links only a Facebook page — searches found no Instagram account, so you are absent from the channel Bhopal patients use most for doctor content.

03 What Nexg does

FIX — websites, dead forms, speed, the leaks above. **GROW** — Google & Meta ads, content, reviews. **AUTOMATE** — AI enquiry assistants, WhatsApp bots, CRM.

> Recent work: we designed and built the website for a Bhopal dental practice — the same kinds of leaks, all fixed and live.
