01 Your top leaks (4 found)

1 critical **Your contact page has no form**

Most visitors won't open their mail app and type — those enquiries silently drop.

2 high **No action button visible in the header on mobile**

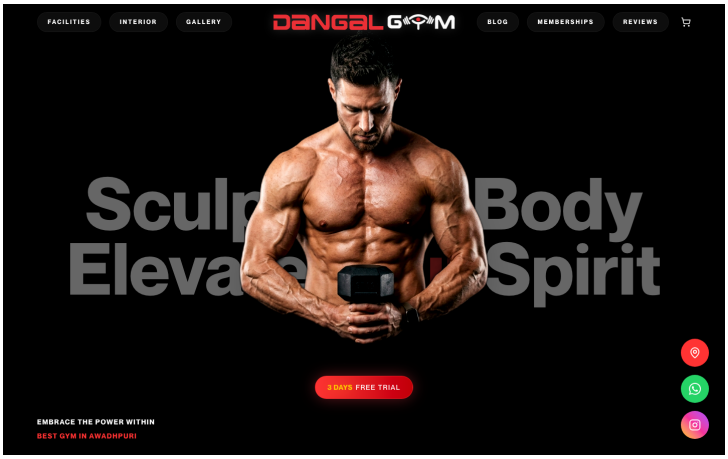

On phones, most visitors never scroll — without a top button they can't reach you at all.

3 high **Homepage takes 9.6s to fully load**

Every extra second of waiting cuts conversions — most visitors leave before it finishes.

4 medium **No reviews, testimonials or client proof on the page**

New visitors have no reason to trust you over an established competitor.
