01 Your top leaks (4 found)

1 critical **Your contact page has no form**

Most visitors won't open their mail app and type — those enquiries silently drop.

2 high **No action button visible in the header on mobile**

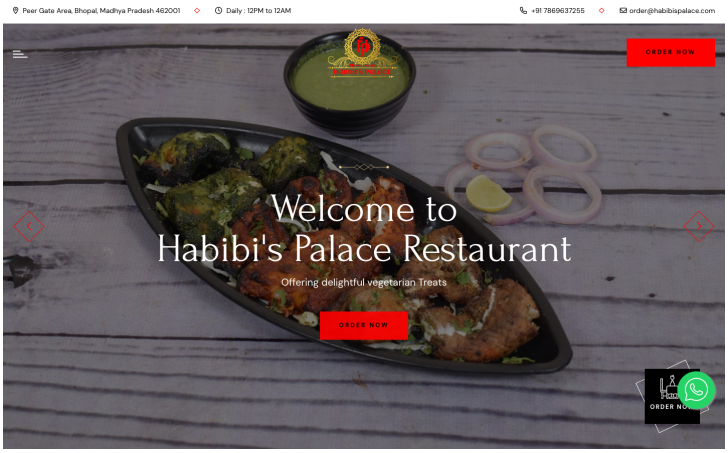

On phones, most visitors never scroll — without a top button they can't reach you at all.

3 low **No meta description**

Search results show random text instead of your pitch — fewer clicks from Google.

4 low **No social sharing preview (Open Graph)**

When someone shares your link it appears as a bare URL — fewer clicks.
