01 Your top leaks (5 found)

1 high **No action button visible in the header on mobile**

On phones, most visitors never scroll — without a top button they can't reach you at all.

2 medium **No WhatsApp click-to-chat**

Many visitors prefer WhatsApp over forms — you're losing the channel they actually use.

3 medium **No reviews, testimonials or client proof on the page**

New visitors have no reason to trust you over an established competitor.

4 low **No pricing visible anywhere**

Buyers self-qualify on price — hiding it delays every conversation and filters out ready customers.

5 medium **7 small tap target(s) on mobile**

Mobile users misclick links and buttons — frustration, then they leave.
