01 Your top leaks (8 found)

1 high **No action button visible in the header on mobile**

On phones, most visitors never scroll — without a top button they can't reach you at all.

2 high **Homepage takes 4.3s to fully load**

Every extra second of waiting cuts conversions — most visitors leave before it finishes.

3 medium **No main heading (H1) on the page**

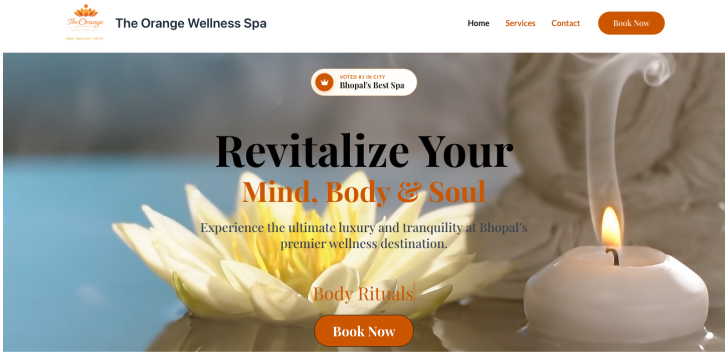

Visitors can't tell what the business offers in 3 seconds.

4 medium **No reviews, testimonials or client proof on the page**

New visitors have no reason to trust you over an established competitor.

5 low **No pricing visible anywhere**

Buyers self-qualify on price — hiding it delays every conversation and filters out ready customers.
