01 Your top leaks (6 found)

1 critical **No clear call-to-action on the page**

Visitors aren't told what to do next — they browse and leave without contacting you.

On phones, most visitors never scroll — without a top button they can't reach you at all.

Every extra second of waiting cuts conversions — most visitors leave before it finishes.

Visitors stare at a blank screen — many bounce before seeing anything.

5 medium **No reviews, testimonials or client proof on the page**

New visitors have no reason to trust you over an established competitor.
